IN THE HOUSE OF REPRESENTATIVES

HOUSE BILL NO. 194

BY STATE AFFAIRS COMMITTEE

AN ACT

111/ 1101
RELATING TO WORKER'S COMPENSATION; AMENDING SECTION 72-438, IDAHO CODE,
TO PROVIDE THAT COMPENSATION SHALL BE PAYABLE FOR DISABILITY OR DEATH
RESULTING FROM CERTAIN FIREFIGHTER OCCUPATIONAL DISEASES, TO DEFINE A
TERM, TO PROVIDE A REBUTTABLE PRESUMPTION OF PROXIMATE CAUSATION BE-
TWEEN SPECIFIED DISEASES AND EMPLOYMENT AS A FIREFIGHTER, TO PROVIDE
FOR REBUTTAL OF THE PRESUMPTION, TO PROVIDE FOR THE DEMONSTRATION OF
CAUSAL CONNECTION, TO PROVIDE THAT THE PRESUMPTION SHALL NOT APPLY UN-
DER CERTAIN CIRCUMSTANCES AND TO MAKE A TECHNICAL CORRECTION

Be It Enacted by the Legislature of the State of Idaho:

SECTION 1. That Section 72-438, Idaho Code, be, and the same is hereby amended to read as follows:

- 72-438. OCCUPATIONAL DISEASES. Compensation shall be payable for disability or death of an employee resulting from the following occupational diseases:
- (1) Poisoning by lead, mercury, arsenic, zinc, or manganese, their preparations or compounds in any occupation involving direct contact therewith, handling thereof, or exposure thereto.
- (2) Carbon monoxide poisoning or chlorine poisoning in any process or occupation involving direct exposure to carbon monoxide or chlorine in buildings, sheds, or inclosed enclosed places.
- (3) Poisoning by methanol, carbon bisulphide, hydrocarbon distillates (naphthas and others) or halogenated hydrocarbons, or any preparations containing these chemicals or any of them, in any occupation involving direct contact therewith, handling thereof, or exposure thereto.
- (4) Poisoning by benzol or by nitro, amido, or amino-derivatives of benzol (dinitro-benzol, anilin and others) or their preparations or compounds in any occupation involving direct contact therewith, handling thereof, or exposure thereto.
- (5) Glanders in the care or handling of any equine animal or the carcass of any such animal.
- (6) Radium poisoning by or disability due to radioactive properties of substances or to Roentgenray (X-ray) in any occupation involving direct contact therewith, handling thereof, or exposure thereto.
- (7) Poisoning by or ulceration from chromic acid or bichromate of ammonium, potassium, or sodium or their preparations, or phosphorus preparations or compounds, in any occupation involving direct contact therewith, handling thereof, or exposure thereto.
- (8) Ulceration due to tar, pitch, bitumen, mineral oil, or paraffin, or any compound product, or residue of any of these substances, in any occupation involving direct contact therewith, handling thereof, or exposure thereto.

- (9) Dermatitis venenata, that is, infection or inflammation of the skin, furunculosis excepted, due to oils, cutting compounds, lubricants, liquids, fumes, gases, or vapors in any occupation involving direct contact therewith, handling thereof or exposure thereto.
- (10) Anthrax occurring in any occupation involving the handling of or exposure to wool, hair, bristles, hides, skins, or bodies of animals either alive or dead.
- (11) Silicosis in any occupation involving direct contact with, handling of, or exposure to dust of silicon dioxide (SiO_2) .
- (12) Cardiovascular or pulmonary or respiratory diseases of a paid fireman, employed by a municipality, village or fire district as a regular member of a lawfully established fire department, caused by overexertion in times of stress or danger or by proximate exposure or by cumulative exposure over a period of four (4) years or more to heat, smoke, chemical fumes or other toxic gases arising directly out of, and in the course of, his employment.
- (13) Acquired immunodeficiency syndrome (AIDS), AIDS related complexes (ARC), other manifestations of human immunodeficiency virus (HIV) infections, infectious hepatitis viruses and tuberculosis in any occupation involving exposure to human blood or body fluids.
 - (14) Firefighter occupational disease:

- (a) As used in this subsection, "firefighter" means an employee whose primary occupation is that of extinguishing or investigating fires as part of a fire district, fire department or fire brigade.
- (b) If a firefighter is diagnosed with one (1) or more of the following diseases after the period of employment indicated, which disease was not revealed during an initial employment medical screening examination or during any subsequent medical review pursuant to the standards set forth in the national fire protection association, section 1582, standard on comprehensive occupational medical program for fire departments, the disease shall be rebuttably presumed to be proximately caused by the firefighter's employment as a firefighter:
 - (i) Brain cancer after ten (10) years;
 - (ii) Bladder cancer after twelve (12) years;
 - (iii) Kidney cancer after fifteen (15) years;
 - (iv) Colorectal cancer after ten (10) years;
 - (v) Non-Hodgkin's lymphoma after fifteen (15) years;
 - (vi) Leukemia after five (5) years;
 - (vii) Ureter cancer after twelve (12) years;
 - (viii) Testicular cancer after five (5) years if diagnosed before the age of forty (40) years with no evidence of anabolic steroids or human growth hormone use;
 - (ix) Breast cancer after five (5) years if diagnosed before the age of forty (40) years without a breast cancer 1 or breast cancer 2 genetic predisposition to breast cancer;
 - (x) Esophageal cancer after ten (10) years; and
 - (xi) Multiple myeloma after fifteen (15) years.
- (c) The presumption created in this subsection may be rebutted by medical evidence presented to the Idaho industrial commission showing that the firefighter's disease was not proximately caused by his or her du-

ties of employment. If the presumption is rebutted by medical evidence then the firefighter or the beneficiaries must prove that the firefighter's disease was caused by his or her duties of employment.

- (d) The presumption created in this subsection shall not preclude a firefighter from demonstrating a causal connection between employment and disease or injury by a preponderance of evidence before the Idaho industrial commission.
- (e) The presumption created in this subsection shall not apply to any specified disease diagnosed more than ten (10) years following the last date on which the firefighter actually worked as a firefighter as defined in paragraph (a) of this subsection.

Recognizing that additional toxic or harmful substances or matter are continually being discovered and used or misused, the above enumerated occupational diseases are not intended to be exclusive, but such additional diseases shall not include hazards which are common to the public in general and which are not within the meaning of section 72-102(22)(a), Idaho Code, and the diseases enumerated in subsection (12) of this section pertaining to paid firemen shall not be subject to the limitations prescribed in section 72-439, Idaho Code.
