15	GRAND TOTAL	\$10,133,500	\$13,459,200	\$74,000	\$23,666,700

SECTION 2. FTP AUTHORIZATION. In accordance with Section 67-3519, Idaho Code, the Department of Administration is authorized no more than one hundred forty-five (145) full-time equivalent positions at any point during the period July 1, 2014, through June 30, 2015, unless specifically authorized by the Governor. The Joint Finance-Appropriations Committee will be notified promptly of any increased positions so authorized.

SECTION 3. CASH TRANSFER FROM GENERAL FUND. There is hereby appropriated to the Department of Administration and the State Controller shall transfer \$101,200 from the General Fund to the Facilities Maintenance Fund, on July 1, 2014, or as soon thereafter as practicable, for the period July 1, 2014, through June 30, 2015.

SECTION 4. NOTIFICATION OF THE STATE TAX COMMISSION. It is the intent of the Legislature that the director of the department shall notify the State Tax Commission when monthly cigarette tax distributions to the Permanent Building Fund have reached an amount adequate to make the final payment of the Capitol Restoration Project bonds. Fund analysis has determined that amount shall be approximately \$10,500,000.

SECTION 5. INFORMATION TECHNOLOGY BILLING PROCEDURES ARE INTENDED TO BE PROMULGATED IN RULE. It is the intent of the Legislature that the department shall analyze its Information Technology Program-related expenses and billings to determine a billing methodology that shares costs between all users of the technology services and capital equipment purchases and maintenance. It is the recommendation of the Joint Finance-Appropriations Commit-

tee that the billing methodology be promulgated in agency rule and presented to the Legislature during the 2015 legislative session.

 SECTION 6. REVIEW OF THE INTERAGENCY AND INTERNAL COST RECOVERY PROCESS. It is the intent of the Legislature that the department conduct an internal analysis of its interagency and intra-agency billing procedures. The department is directed to limit recovery of intra-agency costs into the Indirect Cost Recovery Fund to those same costs it bills other state agencies through interagency billing procedures. When a direct General Fund appropriation has been made to pay for personnel costs or for operating expenditures, the department shall not recover those funds across programs in their indirect cost recovery process.

SECTION 7. BEST PRACTICES FOR CONTRACT MANAGEMENT. The Legislature recognizes that effective contract management is essential to ensuring that public funds are spent appropriately, as described in the Office of Performance Evaluations report on contract management released in January 2013. Therefore, it is the intent of the Legislature that the department shall develop and incorporate a checklist for best practices into its contracting processes. The department shall also develop a statewide contract monitoring system that outlines the entire contracting process so that contracts are properly developed, awarded and monitored using a standardized, statewide framework. The implementation of these measures shall be reported to the Legislature during the 2015 legislative session.

SECTION 8. NOTIFICATION OF CONTRACT RENEWALS OR EXTENSIONS. It is the intent of the Legislature that the director of the department shall notify the Legislature prior to any contract extensions or renewals. As part of the budget submission process, the department shall submit a list of contracts due for renewal in the upcoming fiscal year that exceed \$1,000,000 on an annual basis. Further, the director shall notify the members of legislative leadership, the JFAC chairmen and the germane committee chairmen, in writing, of any proposed early contract renewal or extension at least 90 days prior to signing the contract.

SECTION 9. RESEARCH BENEFITS OF FUNDING A HEALTH SAVINGS ACCOUNT. The Legislature directs the department to research the benefits of incentivizing state employees to enroll in a Health Savings Account (HSA), used in conjunction with a state provided high-deductible insurance plan, and/or a Voluntary Employment Benefit Association (VEBA). The department shall provide information about the financial and logistical implementation of these options to the Joint Finance-Appropriations Committee at the committee's interim tour in Fall 2014.

SECTION 10. TRANSFERRING MONEYS FROM THE PERMANENT BUILDING FUND. There is hereby appropriated and the State Controller shall transfer \$1,368,750 from the Permanent Building Fund to the Administrative and Accounting Services Fund on July 1, 2014, or as soon thereafter as practicable, and on January 1, 2015, or as soon thereafter as practicable, for a total

transfer of \$2,737,500 for the Public Officials' Capitol Mall Facilities payment due in fiscal year 2015.

 SECTION 11. EMPLOYEE COMPENSATION. It is the intent of the Legislature, working cooperatively with the Governor's Office, the Division of Human Resources, and the Division of Financial Management, to progress toward the goal of funding a competitive salary and benefit package that will attract qualified applicants, retain employees committed to public service excellence, motivate employees to maintain high standards of productivity, and reward employees for outstanding performance by:

- 1) Adjusting the compensation schedule upwards by 1% to move the salary structure toward market; and
- 2) Continuing the job classifications that are currently on payline exception to address specific recruitment or retention issues; and
- 3) Funding an ongoing 1% salary increase for state employees, and funding the equivalent of a one-time 1% bonus for state employees, based upon employee merit, with flexibility in distribution as determined by the agency directors.

The Legislature also finds that investing in state employee compensation should remain a high priority even in tough economic times, and therefore strongly encourages agency directors, institution executives and the Division of Financial Management to approve the use of salary savings to provide either one-time or ongoing merit increases for deserving employees and also to target employees who are below policy compensation. Such salary savings could result from turnover and attrition, or be the result of innovation and reorganization efforts that create savings. Such savings should be reinvested in employees. Agencies are cautioned to use one-time funding for one-time payments and ongoing funding for permanent pay increases.
