32	TOTAL	\$11,946,500	\$18,668,300	\$67,000	\$8,531,500	\$39,213,300

SECTION 2. FTP AUTHORIZATION. In accordance with Section 67-3519, Idaho Code, the Superintendent of Public Instruction is authorized no more than one hundred forty-two (142) full-time equivalent positions at any point during the period July 1, 2015, through June 30, 2016, unless specifically

authorized by the Governor. The Joint Finance-Appropriations Committee will be notified promptly of any increased positions so authorized.

SECTION 3. LEGISLATIVE INTENT. It is a legislative priority to provide funding to enable schools to procure broadband services during the 2015-2016 school year. This funding is intended to protect Idaho's schoolchildren and their education from disruption while the state works on a longer-term solution to pay for Internet-based curriculum and connectivity. Funding is provided for July 1, 2015, through June 30, 2016.

SECTION 4. USE OF FUNDS. It is the intent of the Legislature that up to \$6,300,000 from the General Fund provided in Section 1 of this act shall be provided to schools to purchase broadband services in an amount equivalent to what was procured as of March 26, 2015. (a) Schools shall have the power to procure telecommunication services, including high-bandwidth connectivity, Internet access, and purchase equipment, and other related services as necessary to provide for the continuation of broadband-related functions, so long as all purchases are conducted in accordance with Idaho Code governing procurement. (b) The Superintendent of Public Instruction shall require school districts to provide documentation to support all funds distributed. Payments to schools for broadband and associated services shall be for the nondiscounted portion of E-rate services, when applicable. (c) Equivalent services shall be determined by the superintendent at the level of services necessary to meet the educational needs of the students and to provide and maintain necessary supporting equipment and infrastructure. When reimbursement is requested for this purpose, or as it relates to the expansion of services or for the purchase of equipment, then the superintendent may approve such requests after a cost/benefit analysis is conducted that justifies the expansion or purchase of equipment. (d) The superintendent shall have the authority to make advances of the money appropriated for this purpose to schools as the superintendent deems adequate, as determined by the demonstrated need and the cost of services to the school district. (e) This is a fixed appropriation and any unexpended and unencumbered balance shall revert to the General Fund.

SECTION 5. REPORTING REQUIREMENTS. The Superintendent of Public Instruction shall collect information from the school districts and report to the Legislature and to the Governor as to the level of service purchased. The superintendent shall also report the number of students using the services, including, but not limited to, the number of students using the Internet, the number of students taking online courses, the number of students using online digital curriculum, and the number of students using other digital tools.
