49 50 be used for any purpose other than winter feeding as herein specified. Moneys in the feeding account may not be expended except upon the declaration of a feeding emergency by the director of the department of fish and game. Such emergency need not exist on a statewide basis but can be declared with respect to one (1) or more regions of the state. The department shall by rule establish the criteria for a feeding emergency. Provided however, a feeding emergency shall also be declared when any owner or lessee of private property is experiencing loss of feed for livestock due to depredation. An owner or lessee of private property may request that the county extension agent for the county in which the depredation is occurring either determines a loss of feed for livestock, based upon market value, in excess of five hundred dollars (\$500) has occurred due to depredation by antelope, elk or deer or verifies the presence of ten (10) or more head of elk or twenty (20) or more head of antelope or deer on the private property. Such determination or verification by the county extension agent shall be made in writing, signed by the county extension agent and notarized. In the event the county in which the depredation occurred does not have a county extension agent, the owner or lessee may request that either a county sheriff or a designee from his department, or an employee of the Idaho state department of agriculture, as designated by the director of the department, make such determination. The owner or lessee shall submit the determination or verification to the department. In the event of such determination or verification of depredation, the department, within forty-eight (48) hours of receipt of such proof, shall remove any antelope, elk or deer causing such depredation and establish and maintain a winter feeding area removed from the site of depredation for the feeding. The department shall submit a yearly report to the senate resources and environment committee and the house resources and conservation committee of the legislature on or before the 31st day of July, detailing how funds in the feeding account have been expended during the preceding fiscal year.

- (d) Those amounts designated by individuals in accordance with section 63-3067A(3) (a), Idaho Code, and from fees paid under the provisions of section 49-417, Idaho Code. Moneys from these sources shall be used for a nongame management and protection program under the direction of the fish and game commission.
- (e) Money derived from the assessment of processing fees. Moneys derived from this source shall be used as provided in section 36-1407, Idaho Code.
- (2) Moneys in the fish and game set-aside account and the feeding account established in subsection (1)(c) of this section are subject to appropriation, and the provisions of section 67-3516, Idaho Code. Moneys in the fish and game set-aside account and the feeding account shall be invested by the state treasurer in the manner provided for investment of idle state moneys in the state treasury by section 67-1210, Idaho Code, with interest earned on investments from each account to be paid into that account.

SECTION 2. An emergency existing therefor, which emergency is hereby declared to exist, this act shall be in full force and effect on and after its passage and approval.
