## IN THE HOUSE OF REPRESENTATIVES

## HOUSE JOINT MEMORIAL NO. 9

## BY WAYS AND MEANS COMMITTEE

## A JOINT MEMORIAL

TO THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE UNITED STATES IN CON-GRESS ASSEMBLED, TO THE CONGRESSIONAL DELEGATION REPRESENTING THE STATE OF IDAHO IN THE CONGRESS OF THE UNITED STATES, TO THE NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION AND TO ITS NATIONAL MARINE FISH-ERY SERVICE DIVISION.

We, your Memorialists, the House of Representatives and the Senate of the State of Idaho assembled in the First Regular Session of the Sixty-fifth Idaho Legislature, do hereby respectfully represent that:

WHEREAS, all runs of Idaho's wild Steelhead were listed in 1997 as threatened under the Endangered Species Act; and

WHEREAS, many conditions originating outside of Idaho have contributed to the decline of Idaho's wild Steelhead; and

WHEREAS, in spite of collaborative habitat restoration projects and thoughtful fisheries management within Idaho, these external impacts continue to affect wild Steelhead returns; and

WHEREAS, longitudinal scientific research clearly and consistently negates the notion that the operation of the Steelhead fishing season has any appreciable effect on the abundance or recovery of Idaho's wild Steelhead; and

WHEREAS, the hatchery Steelhead fishery constitutes a significant part of Idaho's recreational and tribal fishery; and

WHEREAS, the Steelhead fishery is a significant contributor to the culture, jobs, tourism, recreation, and economy of Idaho; and

WHEREAS, Steelhead fishing by the outfitted and nonoutfitted public on Idaho's rivers is a significant contributor to Idaho's rural economy; and

WHEREAS, Idaho submitted its Fisheries Management and Evaluation Plan for review and renewal to the National Oceanic and Atmospheric Administration (NOAA) in 2010, prior to the expiration of the associated permit required for lawful operation of its fisheries; and

WHEREAS, NOAA still has not, in the nine years since submission, processed that plan and renewed Idaho's Incidental Take Permit; and

WHEREAS, this has placed the State of Idaho fisheries out of legal compliance; and

WHEREAS, on December 7, 2018, under threat of a federal lawsuit by six organizations due to Idaho operating its fisheries without a current federal permit, the Idaho Department of Fish and Game (IDFG) Commission decided to suspend the Steelhead fishing season; and

WHEREAS, the IDFG Commission's decision of December 7 , 2018, to strike a conditional agreement with the litigant coalition forestalled a full closure of the Steelhead season; and

WHEREAS, the terms of said agreement are set to expire on March 15, 2019, or upon verified completion of the requisite permit, whichever should occur first; and

 WHEREAS, we commend the Idaho congressional delegation for its letter to NOAA urging rapid permit renewal and for its influence and support; and

WHEREAS, if the permit is not completed by March 15, 2019, it is possible that those areas that have remained open thus far might be closed and that those areas that the December agreement excluded remain closed for the remainder of the Steelhead season; and

WHEREAS, initial statements made in early December 2018 by NOAA officials projected that the permit would be completed by early-to-mid February; and

WHEREAS, the record 35-day shutdown of the federal government, agencies, and nonessential employees significantly delayed progress toward completing the permit; and

WHEREAS, NOAA officials have now indicated they will attempt to complete the permit before March 15, 2019, but they remain unwilling to commit that they will do so in time.

NOW, THEREFORE, BE IT RESOLVED by the members of the First Regular Session of the Sixty-fifth Idaho Legislature, the House of Representatives and the Senate concurring therein, that we urge NOAA, and specifically the National Marine Fishery Service division, to practice all expediency toward the completion of the Incidental Take Permit required for the lawful operation of Idaho's Steelhead fishing season.

BE IT FURTHER RESOLVED that NOAA is urged to review future Fisheries Management and Evaluation Plans and process permit renewal applications submitted by the State of Idaho in a time frame that does not place the state out of legal compliance and that inherently puts the operation of Idaho's Steelhead fisheries at risk and all that rely upon the fisheries and are otherwise ancillary to them.

BE IT FURTHER RESOLVED that nothing in this Joint Memorial is intended to conflict with the responsible evaluation, nor to the exclusion and consideration of the best available science, of the permit.

BE IT FURTHER RESOLVED that the Chief Clerk of the House of Representatives be, and she is hereby authorized and directed to forward a copy of this Memorial to the President of the Senate and the Speaker of the House of Representatives of Congress, to the congressional delegation representing the State of Idaho in the Congress of the United States, to NOAA, and to the National Marine Fishery Service division of NOAA.
